2025 Charleston Conference Sponsors

THANK YOU! MERCI! DANKE! EFHARISTO POLI!

Conducting a Conference takes a lot of dedication, time, and assistance from a lot of people. It also takes money. The Charleston Conference would like to THANK the following sponsors that made generous contributions to the 45th Annual Charleston Conference. Please thank their representatives when you see them! And see our Sponsor Directory online for contact details.

DIAMOND SPONSORS

ACS Publications
Most Trusted. Most Cited. Most Read.

A division of the American Chemical Society, ACS Publications supports researchers through the publication of journals, eBooks, scientific programs, and the news magazine Chemical & Engineering News. With a comprehensive portfolio of 85+ journals, including a range of fully open access titles, ACS Publications has a home for every type of research.

Elsevier is a global information analytics business that helps scientists and clinicians to find new answers, reshape human knowledge, and tackle the most urgent human crises. For 140 years, we have partnered with the research world to curate and verify scientific knowledge. Today, we're committed to bringing that rigor to a new generation of Elsevier platforms. By freeing the flow of ideas, our platforms help advance the application of science to the most pressing questions of our time.

www.elsevier.com

Frontiers is a leading research publisher. Our role is to provide the world's scientists with a rigorous and efficient publishing experience.

Scientists empower society and our mission is to accelerate collaboration and discovery by making science open – enabling researchers to find the solutions we all need for healthy lives on a healthy planet.

Powered by custom-built technology, artificial intelligence, and a constructive peer review, our community journals give experts in more than 1,800 academic fields an open access platform to publish high quality, high impact research.

Through our outreach work to build strong partnerships with business, policymakers, and educators, we're leading the transition to open science.

Sage is a global academic publisher of books, journals, and library resources with a growing suite of technologies that promote discovery, access, and engagement. Established in 1965 by 24-year-old Sara Miller McCune, Sage was founded on the belief that research and education are critical in shaping society. Our guaranteed independence frees us to measure success not by our share price, but through our mission to "build bridges to knowledge." For six decades, this mission has been realized by transforming ideas into scholarship that is certified, taught, and applied globally.

Visit www.digital-science.com.

Founded in 1988 and headquartered in Hershey, Pennsylvania, USA with a subsidiary office (IGI Science and Technology, Ltd.) operating out of Beijing, China, **IGI Global** is a leading medium-sized independent

international academic publisher of cutting-edge, high-quality, peer-reviewed scholarly reference publications in the three major academic subject areas of Business & Management, Scientific, Technical, & Medical (STM), and Education. With a commitment to facilitating the discovery of pioneering scientific research, this publishing house has empowered over 200,000+ expert researchers from leading institutions globally to bring advanced research books from conceptualization to completion in an impressive 6-9 months from proposal acceptance to publication. IGI Global journal articles have a rapid turnaround, on average taking 2-4 weeks, and are then added to a significant portfolio of nearly 200 journals within IGI Global's Open Access Journal Program. Through traditional and open access publishing workflows, this unique proprietary process makes *tomorrow's research* available to the research community *today*.

Bronze Sponsors

ACM is the world's largest computing society, bringing together educators, students, and professionals, and promoting research and innovation through its journals, magazines, and the proceedings of more than 170 annual conferences and symposia. The Digital Library currently includes hundreds of thousands of full-text articles authored by leading researchers in computing. The flagship magazine *Communications of the ACM* provides industry news, commentary, observations, and practical research.

https://www.acm.org/

Research is our mission. ASM Journals are internationally recognized for disseminating trustworthy, peer-reviewed research and supporting author-friendly policies. Our editors are well-known microbial science leaders from around the world. Drawing on their wealth of knowledge, experience, and diverse perspectives, ASM editors and reviewers provide fair and impartial assessments of all research submitted to our journals. As a not-for-profit organization, ASM is accountable to scientists and our community by holding ourselves to strict ethical standards and integrity with every paper we publish. There is a trusted home for every kind of microbial science at ASM -- from health and mechanism discovery to applied and environmental science and much more.

Our journals are renowned for publishing high-quality microbiology research with a global reach, ensuring maximum visibility and impact for subscribed content. We prioritize the needs of the microbial science community, offering a streamlined submission process, rapid peer review, and a commitment to open science. By subscribing to ASM Journals, you provide your institution with access to top-tier research that fosters collaboration and accelerates scientific advancement.
