Charleston In Between

2026 Hybrid Event – In Berlin or Online: June 25-26, 2026

Theme: "The Creative Destruction of Scholarly Communication"

Charleston In Between is a focused, community-driven one and a half day conference designed to extend the conversations that begin at the annual Charleston Conference. Originally conceived as a virtual event held between the November conferences, In Between creates space for timely, high-impact discussions that can't wait for the next annual gathering. 2025 was our first highly successful hybrid event, held in Berlin and online, and we're excited to bring that format back in 2026.
